### EDUCATION

The **Chairmen's RoundTable**, a nonprofit volunteer organization that assists executives of local private businesses, has formed an alliance with SDSU's **Entrepreneurial Management Center**. They have agreed to cross-promote each other's activities and resources to provide local entrepreneurs access to the resources of the RoundTable and the Management Center. "This is a natural partnership because the missions of the CRT and EMC are so closely aligned," says **Hus Tigli**, chairman of the CRT. "CRT's mentorship program is a complementary extension to the work that is being fostered at the EMC. Likewise, many companies that come to the CRT for executive mentoring can also benefit from the education, training and on-going assistance that is available through the EMC."
